2020: Turing School of Software & Design

2009 - 2012: Univ. of Mass
M.Ed School Counseling

2005 - 2009: Juniata College
BS Psychology

Projects

Lien Flash

[Site](#)

[Repository](#)

Joint FE/BE project creating an app for a client. Lien Flash allows a user to track jobs that are unpaid, see where they are in the lien process, and submit said jobs for liens through an API that connects to a custom built backend.

Tech Stack: React, React Router, Redux, Hooks, React Testing Library, Jest, and SASS/SCSS

Fridge to Glass

[Site](#)

[Repository](#)

Group project where we designed and developed an app that connects with a cocktail API to return drinks based on an ingredient the user searches for.

Tech Stack: React, React Router, Redux, React Testing Library, Jest, and CSS

Trivia Gamemaster

[Site](#)

[Repository](#)

Solo project which retrieved trivia questions from an API and allowed the user to save questions they wanted to use in a game.

Tech Stack: React, React Router, Redux, React Testing Library, Jest, and CSS

Experience

2021 Turing School of Software & Design

Student Support Specialist

- Support students 1-1 or in small groups in learning Javascript, React, HTML, CSS, and general problem solving skills.
- Track student progress and communicate with instructional team if needed.

2020 Turing School of Software & Design

Software Engineer

- Focus on learning Javascript, React, CSS, HTML, reading & understanding documentation, and how to learn tech on your own.
- Complete 8 - 10 projects, a variety of solo, paired, and group projects.
- Program is 7 months long and approximately 1500 hours of learning and instruction.

2017 - Easton Training Center

2019

Academy Operations Director/Dir. of First Impressions/First Impressions Specialist

- Supervised functional and efficient Front Desk operations, sales, and system implementation to ensure smooth operations for staff and members.
- Managed a team of 3 First Impressions specialists responsible for sales to ensure customer satisfaction through training, meetings, and direct supervision.
- Memberships grew by 25% while leading Front Desk operations
- Created and improved system processes for maintenance, rental & retail inventory, opening & closing procedures, and lead conversions.
